1	A stage pressure-based adaptive traffic signal control using reinforcement learning	Fuyu Hu, Wei Huang	2021 International Conference on Intelligent Traffic Systems and Smart City (ITSSC 2021)	2022	12165	435	441	是	否

2	One-way carsharing service design under demand uncertainty: A service reliability-based two-stage stochastic program approach	Wei Huang,Wentao Huang, and Sisi Jian	Transportation Research Part C	2022	159 (102624)	/	/	是	否
3	A reinforcement learning approach for adaptive traffic signal control	Fuyu Hu,Xuanyu Zhang,Wei Huang	The 25th International Conference onHong Kong Society for Transportation Studies (HKSTS 2021)	2022	/	/	/	是	否
4	Real-Time Traffic State Estimation For Signalized Intersections Using Multi-Source Data	Yang Hu,Jing Hu,Wei Huang	The 25th International Conference onHong Kong Society for Transportation Studies (HKSTS 2021)	2022	/	/	/	是	否
